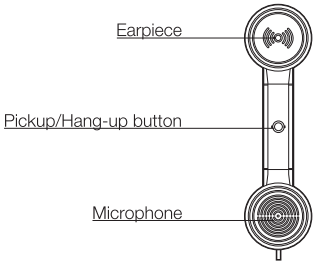
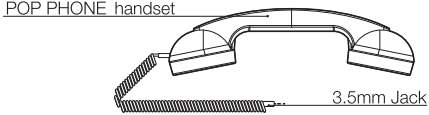
1. One POP PHONE
2. One instruction manual

LOCATION OF CONTROLS





How to use the POP PHONE:

PLEASE READ THESE INSTRUCTION CAREFULLY before using your new handset

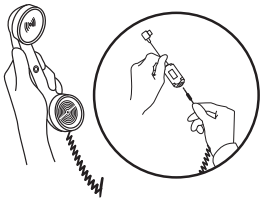
IMPORTANT SAFETY INSTRUCTIONS READ BEFORE OPERATING EQUIPMENT
This product was designed and manufactured to meet strict quality and safety standards.
There are, however, some installation and operation precautions which you should be particularly aware of :

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
8. Only use attachments/accessories specified by the manufacturer.

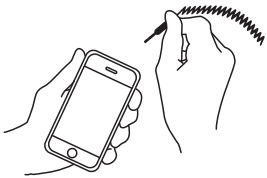
CONNECTING YOUR POP PHONE TO YOUR MOBILE PHONE

STEP1
You need to refer to the attached adaptor table to check which adaptor is needed to connect your mobile phone to your new POP PHONE. If your mobile phone doesn't require an adaptor, please proceed directly to step 3.

STEP2 (optional, please check on the adaptor list if your phone need it)
Plug the corresponding adaptor to the 3.5mm jack end of your POP PHONE.



STEP3
You can now securely plug your POP PHONE into the hands-free port of your mobile phone (please refer to your mobile's phone instruction manual to locate this port)



BE CAREFUL not to force the adaptor into your mobile phone, you could damage it. We can not be held responsible for any damage you will do to your mobile phone while trying to plug your POP PHONE. Depending on your brand and model of mobile phone, a message or logo may now appear to your screen indicating that the POP PHONE have been detected.

MAKING A CALL

Once your POP PHONE is connected to your mobile phone, you can make a call as you normally do it. Volume is controlled through your mobile phone as usual.

ANSWERING AN INCOMING CALL

Most mobile phone will support the POP PHONE answer button function. Just press the central button on the handle of the handset and it will work as your mobile phone answer button.
If your mobile phone doesn't support the answer button function, you can then answer the call by pressing the regular answer button on your mobile phone.

DISCONNECTING A CALL

Once you have terminated your conversation, simply press the answer button of the POP PHONE handset again and you will be disconnected.
If your mobile phone doesn't support the answer button function, you can then disconnect the call by pressing the regular disconnect button on your mobile phone.

LAST NUMBER DIALLED

Depending on your mobile phone brand and model, you may be able to redial the last number called by simply pressing the POP PHONE answer button while phone in standby.

VOICE ACTIVATED DIALING

The POP PHONE also supports “voice activated dialing” with certain brand and model of mobile phones. Before you can use this function, you need to set up voice tags on your mobile phone (please check your mobile’s phone instruction manual for more details). To make a voice activated call, hold down the answer button of the POP PHONE until you hear a “bip”. You must then pronounce the name of the contact you wish to call.

TROUBLE SHOOTING

If you are having problems using your POP PHONE, please go to www.nativeunion.com for further help and information, or consult your local retailer.

ADAPTORS

The POP PHONE works with most of the mobile phone available on the market.
Some of them will require a special adaptor to connect to your POP PHONE.
To check which adaptor your phone requires to be connected to a POP PHONE,
please go to www.nativeunion.com/pop phone/adaptors.

LIMITED WARRANTY

If the product appears to be damaged or does not function properly, please follow the advice in this booklet.
If you can not find any solution in this booklet, please go to www.nativeunion.com/support for instructions about how to obtain warranty service.

FCC COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following 2 condition :
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IMPORTANT SAFETY WARNINGS

1. FCC regulations state that any change or modification to the equipment, not expressly approved by the manufacturer or its authorized parties, could void user's authority to operate this equipment.
2. To prevent fire or electric shock, do not expose the unit to rain or moisture.
3. Never attempt to open the casing. Always refer servicing to a qualified technician.

FCC NOTICE (USA)

As specified in Part 15 of the FCC Rules, this equipment complies within the limits of a Class B digital device. These restrictions provide sufficient protection against radio and TV interference in residential areas. However, even during normal operation, this device may cause TV or radio interference. In attempting to eliminate some or all interference, you should try one or more of the following corrective measures:
1. Increase the distance between the device and the radio and/or TV
2. Try a different outlet on various electrical circuits for the device, the radio and/or TV.
3. Reposition the receiving antenna

Disposal of old electrical and electronic equipment :

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies:
Electrical and electronic devices may not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service lives to the public collecting points set up for this purpose or point of sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilizing old devices, you are making an important contribution to protecting our environment.
